Respected HOD,

We, the students of **Artificial Intelligence & Data Science (AI&DS), 1st Year, Section 12**, would like to respectfully request your permission to organize "**Novus 2026**," a technical event aimed at fostering innovation, technical proficiency, creativity, and collaborative learning among students.

The event will comprise a range of technical competitions and activities designed to challenge participants and provide them with an opportunity to apply their knowledge in a practical and engaging environment. The proposed events include:

- **Technical Quiz** – Assessing participants' knowledge of technology, programming, and emerging trends.
- **Coding Challenge** – Testing participants' programming skills and problem-solving abilities.
- **Debugging Challenge** – Encouraging participants to identify and resolve errors in programming problems.
- **Project and Idea Presentation** – Providing a platform for students to present innovative projects and technical solutions.
- **Tech Treasure Hunt** – Combining technical knowledge, logical reasoning, and teamwork in an interactive competition.
- **Technical Games and Challenges** – Promoting creativity, analytical thinking, and effective collaboration.

The event will be organized collectively by our team, with clearly assigned responsibilities to ensure effective coordination and smooth execution. We also propose providing **gifts, prizes, and certificates to the winners** as a token of appreciation for their performance and participation.

We assure you that the event will be conducted in a well-organized, disciplined, and professional manner while adhering to all institutional rules and guidelines. We will also ensure that all necessary arrangements are made in consultation with the concerned faculty members.

We kindly request you to grant us permission to organize **Novus 2026** and provide us with your valuable guidance and support. We believe that your encouragement will play an important role in making the event successful and beneficial for all participating students.

Thank you for your time and consideration. We look forward to your kind approval.

Yours sincerely,

**On behalf of the Novus 2026 Organizing Team****Department:** Artificial Intelligence & Data Science (AI&DS)**Year & Section:** 1st Year – Section 12**Team Members:**
